Javascript | AstroJS | ReactJS | NodeJS | Express | MySQL | C/C++ | Bash | Python | Java | Lua | Git | Linux | Vim | p5js

Projects

[Nishanth](#) | Portfolio

In Progress

AstroJS | Javascript | CSS | SCSS | HTML

- Personal portfolio site portraying all the information about my projects and experiences with a bit of easter eggs.
- Used AstroJS to reduce the load the client browser on animation plugs.
- Used SCSS to streamline and maintain the code quality.

[StartMyDay](#) | CLI Tool

Feb'23

Bash Script | Curl | Grep | jq

- A CLI Tool for developers to get weather and reminder updates in the terminal emulator.
- Used Curl, Grep and jq to fetch needed information out of the API to get location to map the weather details.
- Used "wttr" API to get weather updates.
